Waste Management to serve Normandy Park starting in August New contract brings service improvements

NORMANDY PARK, Wash. (July 10, 2018) - Waste Management will provide waste, recycling and yard waste services to residents of the City of Normandy Park, beginning in August. A benefit of the new contract is that residents will receive new and convenient roll carts from Waste Management. Cart delivery will begin July 18 and continue through the end of July. Tuesday will remain the collection day, so the first collection from Waste Management will be Aug. 7.

Commercial customers in Normandy Park will begin service with Waste Management on Aug. 1. As a benefit of the new contract, basic service for commercial customers will include recycling as well as garbage collection. Commercial customers will begin receiving Waste Management containers on July 23.

Key dates:

- July 15: Meet your Waste Management team for a barbeque at Marvista Park starting at 4:30 pm. Learn about the new services and get recycling tips.
- July 18 - July 31: All residential customers will receive new WM carts.
- July 23 - July 28: Commercial customers will begin seeing their carts and dumpsters swapped from Republic to WM.
- July 24 & 31: Residential customers should leave their old Republic carts at the curb for removal. Once the carts are removed, start using the WM carts.
- August 1: Waste Management will begin service to commercial customers.
- August 7: This is the first day of residential service from Waste Management. Celebrate **“Wave to your new driver day.”** Say hello to your new drivers.

Waste Management will use Think Green renewable natural gas trucks to serve the City of Normandy Park. These trucks are cleaner and quieter than diesel trucks.

All Republic customers will automatically transfer to Waste Management at the same service levels. More information on services is available at wmnorthwest.com/NormandyPark.

ABOUT WASTE MANAGEMENT

Waste Management is the leading provider of comprehensive recycling and environmental services across the Pacific Northwest and North America. For the City of Normandy Park, Waste Management will provide innovative sustainability solutions, from curbside collection with green-certified trucks and award-winning recycling outreach.
