

## NEW! Snoqualmie Curbside F.O.G. Program

Waste Management collects  
FATS, OILS, and GREASE (F.O.G) at your curb!

### GUIDELINES FOR PLACING F.O.G. AT THE CURB

1. You may set out used motor oil and cooking oil.
2. Place up to 3 gallons of used fats, oils, or greases in a clear plastic, screw top container. **HINT:** milk and cooking oil jugs work great!
3. Please label with your name and address and place next to your recycling cart on your service day.

You can place us  
curbside on your  
pickup day!
