Now Available: New Produce Sticker Trading Cards!

New Produce Sticker
Trading Card

Foodcyclers,
We are excited to
share with you
the summer/fall
2015 Produce
Sticker Trading
Card.

We know how
dedicated you are
to helping keep
those pesky little
stickers out of

your curbside compost cart and that you
love your Cedar Grove compost.

Download your new trading card from the
Foodcycling [home page](http://wmfoodcycling.com), start filling it up
today and get discounts on compost for your
summer and fall gardening!

Paper copies of the cards can be picked up
at fairs, festivals and farmers markets. To
see the full list of where we will be this
summer, visit:

<http://wmfoodcycling.com/tradingcard.htm>.

Remember produce stickers are not edible,
not compostable and they are not paper. In
fact, they are often made from vinyl! When
they end up in the food/yard cart, they are
very difficult for local composters to remove,

Sunday Closed.

cedar-grove.com/about-us/locations-contact

and they end up making it all the way through the compost system.

Does everyone you know have this tool and the info they need to help **Keep Compost O' Natural?** This effort is a community affair - help spread the word and share the Produce Sticker Trading Card with friends, co-workers and family!

Full trading cards can be redeemed at any Cedar Grove Landscape Yard location for 15% Off your total retail purchase of bulk or bagged compost. The summer/fall cards will expire on October 31, 2015-so it's time to get busy.

And, as always, if let us know if you have any questions, or any ideas to share with your friends and neighbors in the Foodcycling community.

Happy Foodcycling!

Candy
