RECYCLING

Reciclaje Утиль Rác Tái chế 回收

✓ Plastic bottles, plastic round containers, metal, paper and cardboard. 6 oz. or larger, empty and dry.

✗ No plastic bags or wrap, lids, glass, garbage, motor oil bottles or containers that have come into contact with pesticides or herbicides.

WHY RECYCLE

Recycling has a lot of benefits: it saves natural resources, reduces pollution, and creates jobs.

The purpose of recycling is to reduce the amount of new materials used to manufacture products. By recycling materials like paper, plastic, metal and glass, you are helping to reduce the amount of new materials that need to be extracted from our Earth.

GARBAGE

Basura Мусор Rác còn lại 垃圾

✓ All garbage, including plastic bags, to-go containers, lids, packaging, food-soiled paper, freezer boxes, tissues, napkins and Styrofoam™. Please bag: animal waste, cat litter, packing peanuts and broken glass.

✗ No TVs, computers, batteries, liquids of any kind, hazardous waste (flammables, paint, pesticides, fluorescent lights).

DID YOU KNOW?

Putting the wrong items into the recycling bin creates health and safety issues for recycling workers, pollution in the environment and can jeopardize items not being accepted.

YOU CAN HELP BY RECYCLING RIGHT by leaving garbage and hazardous materials out of your recycling bin. It will have a positive impact.

YARD WASTE

Desechos de jardinería Rác Sân Vườn
Хозяйственные отбросы 庭院废物
